Exactly because our conference rooms are small

smoking is very irritating to non-smokers. I'm for Closing H&W guidelines & Banning smoking in conference rooms. I wouldn't do it as a non-smoker, but now that it's govt policy I believe we should. of the 2 rights to smoke & to breath clean, healthy air, I'm with latter. This executive order

to all dining rooms included.

Washington, D.C. 20505

Honorable Joseph A. Califano, Jr.
Secretary of Health, Education, and Welfare
200 Independence Avenue, S.W.
Washington, D.C. 20201

Dear Mr. Califano:

I have read the proposed regulation on "Smoking in GSA-Controlled Buildings and Facilities" and I certainly agree that it establishes a sensible and reasonable policy. You may be assured that this Agency will give its full support toward implementing the regulation. Incidentally, I have declared my office as a non-smoking area.

There was ~~only~~ one point which was raised in our response to GSA. ~~Conference rooms~~ in CIA are relatively small and generally in the proximity of Agency senior officials. In deference to those officials or others who may be chairing meetings, it might be equitable to give them some say as to whether or not smoking is to be permitted rather than instituting an outright ban.

In general, I see nothing within the proposed regulation which would draw criticism from smokers and non-smokers and I heartily endorse the policy.

Yours sincerely,

STANSFIELD TURNER
